CARL DE SUZE ON IRELAND

The Cane Club of Marion sponsored the distinguished radio personality and world traveler, Carl de Suze in an appearance at the Gilbert D. Bristol auditorium at the Old Rochester Regional High School on Monday, May 10th.

Mr. de Suze is known to people here for his radio show originating from Boston and for his many previous appearances with travel productions. Because of his professional experience, Mr. de Suze brings to his subject a polish and a flavor that is unique.

The latest trip to Ireland left Mr. de Suze with great admiration for the people of Ireland and enthusiasm for the emergence of that country both economically and politically. The admiration seemed to be mutual for Mr. de Suze said that Irishmen he met kept insisting that he must be at least part Irish. He said that perhaps it was because of his fondness for a favorite Irish beverage.

Some truly magnificent color movies of the coast and landscape of Ireland were the framework of Mr. de Suze's theme. He chose to tell his story symbolically by using an Irish friend Desmond as the catalyst. Desmond, a poet, had returned to Ireland after 10 years of self exile. He had been forced to leave because backward social, economic and political system had made his homeland a place of small op-

portunity. Therefor, he returned hating his country for denying him this opportunity and yet still loving Ireland for the land and the people. Through the eyes of Desmond, Mr. de Suze hammered at the theme of Ireland on the march, awakening to new life, new power and respect in the councils of the world. Invoking Desmond and the stone crosses of great events, Mr. de Suze played his voice like a musical instrument to accompany the Irish countryside unfolding on the screen. Lush greens of every shade bathed by "soft" weather (misty rain), great cliffs, surf and sea birds, castles, ancient and mellow unfolded. Like the surf, the voice of Carl de Suze surged at Desmond, calling him back, bidding him look, marking him well on the new status of his country. Ah, Desmond, he cried, this is a stirring land. Desmond, this is your future. Here, you can make your mark of greatness, Desmond, like the ancient crosses of stone.

It is always a rewarding experience to hear Carl de Suze and see his wonderful pictures. The Ireland that he saw and photographed, so beautifully, did stir a curiosity. It left us filled with admiration for the beauty of the country. We do wonder about those old castles, about the people and even about the everyday incidents in the travels of Carl de Suze. Occasionally, we'd have liked to lower our eyes from the great stone crosses to get down to the green earth.

A near capacity audience attended this Cane Club event. Mr. de Suze was introduced by Phillips A. Noyes of Marion, who very ably expressed the pleasure of the club in the presentation of a personality so entertaining and always educational.

A TEAM PROGRAM - ORRHS & TABOR ACADEMY

Old Rochester Regional High School and Tabor Academy are cooperating in a program sponsored by the United States and Massachusetts Departments of Labor designed to meet a two-fold need of providing summer income for students and meeting the demand for seasonal agricultural labor.

A TEAM (Athletes in Temporary Employment as Agricultural Manpower) is the designation of the program which has won wide spread favorable comment among educators and created enthusiasm among students.

The schools will furnish one or more teams of between 20 and 31 students who will live and work together for periods of from two to twelve weeks. Each team will have a qualified local counsellor with them. Hours, working and living conditions will be closely supervised by the state and federal governments.

Each student will be paid not less than $1.30 per hour; incentive systems and differentials established by the department of labor for the different crops make it possible for this rate to be increased. Minimum age for participation is fifteen years.

Transportation will be furnished by the employing farms both ways without charge. Meals of good quality and ample quantity, subject again to government supervision, will cost each student $2.25 per day.

Each student desiring to participate must contract for service of not less than two weeks. Contracts may be renewed for a period not to exceed twelve weeks. Students will be required to have written parental consent and must pass

The crop creating the greatest demand for workers in Massachusetts is tobacco; many more workers will be required in neighboring Connecticut where tomatoes are widely grown.

DOG PROBLEM NIPPED

In a move that will provoke much pro and con comment, Mattapoisett Selectmen William J. Spark, Jr., George White and David N. Haley have acted to bring a growing problem under control.

It is probably not widely realized that a canine population explosion has resulted in a constant string of complaints to town officials. This town is not unique in this respect. Two years ago, Wareham saw dog bites reach alarming totals of nearly 150. By placing their dogs under the restraining order, Wareham cut this total by nearly half.

Mattapoisett had a (reported) total of 19 dog bites last year, plus an enormous increase in dog complaints. In some sections dogs have been running in packs creating a hazard and a real fear for safety.

Rather then let the situation become critical, the Selectmen have faced the facts and have acted before more serious trouble. While it is true that most dogs are well behaved and completely trustworthy, it is also a fact that it's hard for the average pedestrian to distinguish friend from occasional foe until it is too late. If the restraining order saves one person from a painful or disfiguring encounter it will have served a good purpose. It will never be possible to give credit for the prevention of bites that did not happen, so the Selectmen are likely to receive little credit or praise. They certainly deserve great credit for acting before a serious accident - for nipping the problem in the bud. They deserve the
